Further to it, the Lithic Furniture Series by Wriver is a bold conversation between art, nature, and innovation. Inspired by the fantastical architectural style of Antoni Gaudí, the series infuses organic shapes, vibrant colors, and intricate details into its design.

The series is built around Wriver's exclusive "Pesta Mosaico"-a proprietary, eco-conscious finish crafted from a unique blend of industrial by-products like paper, wood, and metal shavings. The Lithic Series, offering diverse furniture typologies such as seating, tables, and storage, masterfully harmonizes nature-inspired design with sustainable innovation, creating a sense of wonder and seamlessly blending with any surrounding.

The Pesta Mosaico finish is an innovative solution to industrial waste. Created from by-products generated during furniture manufacturing including excess paper, discarded wood, and metal shavings, this distinctive material transforms salvaged fragments into a unique surface.

The finish comes in two variations: PM1 blends paper and wood shavings, while PM2 integrates paper, wood, and metal shavings for a different texture. The innovative surface rests on a sturdy fiber composite sub-structure, ensuring each piece is as strong and stable as it is beautiful.

The Lithic Series celebrates the raw, natural forms found in the world. It honors imperfections, evoking a sense of wonder by finding beauty in the unconventional and the untouched.

Lastly, KOKET's pieces are sculptural in form and a celebration of glamour. The guilty pleasures collection features a jaw-dropping array of armories and cabinets, alluring tables, and decadent consoles. Each item is a piece of functional artistry, meticulously crafted to captivate the senses and command attention. The brand's mirrors and screens are no exception, serving as exotic and luxurious accents that redefine a space. This is a collection for those who want to begin a love affair with luxury design, one exceptional piece at a time.

It's breathtaking lighting collection is designed to be the ultimate statement piece. It masterfully uses a combination of shimmering Swarovski crystals, natural semi-precious agate slices, and luminous bronze and gold to create a dazzling play of light. This is more than just a light source; it's a decadent piece of ambient lighting that artfully sets the perfect mood for any room. They act as functional sculpture, commanding attention with their scale, form, and luxurious materials. This turns a simple light fixture into a powerful anchor for the entire space, giving the room a sense of purpose, drama & high-end elegance.

The Deb loveseat masterfully balances a fun, flirty personality with modern sophistication. With its perfect proportions and full upholstery, this loveseat is designed for both style and comfort. It's an elegant and charming addition to any space, proving that a piece can be both delightful and flawlessly functional.

This new era of design signals a profound shift, where furniture transcends its conventional role to become a statement of conscious art. It's an invitation to experience spaces not just as places to live, but as curated canvases that reflect a deep appreciation for artistry, ingenuity & a commitment to a more thoughtful future.
